

2024 Taiwan KOM Challenge

Spectator Tour

This year, the "Taiwan KOM Challenge" route stretches from the Yilan Central Cross-Island Highway branch to Wuling, the highest point on Taiwan's highways. The route passes through Nanshan, Siyuan Pass, Wuling Farm, Lishan, Dayuling, and finally reaches Hehuanshan Wuling. The journey is winding and treacherous, spanning a total distance of 150 kilometers from the deep valleys to the high mountains of Wuling. The route passes through the river terrace terrain of Nanshan, the watershed of the Lanyang River and Dajia River at Siyuan Pass, and features the vertical rock formations of Wuling Farm and the fiery red autumn maple leaves in Lishan. Additionally, it is home to rare species such as the Formosan landlocked salmon and the White-whiskered Laughingthrush. The final challenge is the 10-kilometer "Road to Heaven" to Hehuanshan Wuling. Due to the limited public transportation options along the route, those who are not participating in the race but are interested in watching the event, as well as family and friends accompanying participants, are encouraged to join the KOM Spectator Tour.
